## Rotary Foundation

In Ghana, 6 million people lack access to clean water, leaving them vulnerable to water-related illnesses. Contaminated water and poor sanitation cause 70 percent of all illnesses in Ghana. Rotary volunteers in Ghana work alongside USAID and local government agencies. They drill wells, improve toilets and latrines, support hygiene programs, mentor community members, and advocate for water and sanitation services.

Your donation to the Rotary Foundation ensures that programs like these continue. "Every Rotarian, Every Year!"

Rotary and USAID are creating Tippy Tap devices to encourage good hygiene in remote areas. Tippy Tap devices use a simple foot paddle to tip a water container so people can safely wash their hands.
